ABOUT THE COLLOQUIUM

On Monday, November 18, 2019, the Alzheimer Society of Montreal will hold an inaugural colloquium for learning and the exchange of leading-edge information.

The theme of the 1st Annual *Barclay* Family Colloquium is:

INNOVATIVE AND ASSISTIVE TECHNOLOGIES IN DEMENTIA CARE

Over 100 health care professionals, service providers, caregivers and students will benefit from the expertise of prominent researchers, policy makers and service providers as they discuss leading-edge developments in the fields of aging and neurodegenerative disorders.

We hope you will join us!

ABOUT THE ALZHEIMER SOCIETY OF MONTREAL

Our story began in 1981, when the Alzheimer Society of Montreal was founded by a small group of visionaries, mainly caregivers, who were confronted by a lack of information about Alzheimer's disease, limited knowledge of the field, and little support for families affected by dementia.

Staying true to its roots over the years, the Society has been on the cutting edge of information, education, and psychosocial support services.

The Alzheimer Society of Montreal is the largest network of community-based services in Montreal and remains the reference point for Montrealers living with dementia, caregivers, health care professionals, organizations, and members of the public in search of resources and services.

"Mémoire du cœur" - mural by Julian Palma at the Alzheimer Society of Montreal's Head Office.

SCHEDULE - PART 1

| | |
|-------------|----------------------------------|
| 7:30 – 8:15 | Registration, Kiosks, and Coffee |
| 8:15 – 8:30 | Welcome |

| | |
|--|--|
| 8:30 – 9:15 | FIRST KEYNOTE SPEECH |
|  | <p>Insights into the Impact of the Canadian Dementia Strategy on the Ongoing Implementation of the Quebec Alzheimer Plan ENGLISH</p> <p>Presented by Dr. Howard Bergman.</p> <p>Howard Bergman is Chair of the Department of Family Medicine and Professor of Family Medicine, Medicine, and Oncology at McGill University, where he was the first Dr. Joseph Kaufmann Professor of Geriatric Medicine from 2001-2015. He is Special Advisor (International) to the Dean of the Faculty of Medicine and a Fellow of the Canadian Academy of Health Sciences (CAHS).</p> <p>He is internationally renowned for research which has influenced policy change in primary care, integrated care, aging, chronic disease and frailty, with more than 170 peer-reviewed publications. In 2015, he received the College of Family Physicians of Canada Award for Lifetime Achievement in Family Medicine research.</p> <p>He chaired the Canadian Academy of Health Sciences Panel of 6 experts for the Assessment of Evidence and Best Practices for the development of a Canadian Dementia Strategy, assembled at the request of Public Health Agency of Canada.</p> |

| | |
|--|--|
| 9:15 – 10:30 | WORKSHOP # 1 |
|  | <p>Technology as a Tool for Dementia Challenges ENGLISH</p> <p>Presented by Ron Beleno, dementia care advocate and former caregiver.</p> <p>Technology and assistive tools can be overwhelming when it comes to understanding, applying and learning how to use them. We will simplify this through a conversational presentation using real-life examples, such as: home safety, the risk of going missing, social isolation, and time/resource challenges.</p> |
| OR | |
|  | <p>Gérontechnologie au service du maintien à domicile FRANÇAIS</p> <p>Présenté par Dr Maxime Lussier, chercheur au niveau postdoctoral, Université de Montréal.</p> <p>Les nouvelles de l'information sont de plus en plus présentes dans nos vies. Plusieurs vantent leurs mérites pour améliorer la qualité de vie ou même le maintien à domicile des personnes âgées pour qui l'autonomie à domicile est un défi. Cette présentation vise tout d'abord à survoler les déterminants à l'adoption d'une technologie dans le cadre d'un pratique professionnel ou par un proche aidant. Ensuite, la présentation survolera quelques technologies offertes sur les rayons des magasins.</p> |

SCHEDULE - PART 2

10:30 - 11:00 | Health Break and Kiosks

11:00 - 12:15 | **WORKSHOP # 2**

Huddol: The Power of Community in Overcoming Adversity | ENGLISH

Presented by **Adriana Aguilar Ordonez**, Director of Engagement, Huddol.

Participants in this workshop will learn about the origins of Huddol and receive a guided tour of the platform, through which they can build a network of allies with whom they can navigate the dementia experience. Participants will learn about Huddol's origin and mission, as well as its core features and benefits.

OR

Développement d'une intervention à domicile pour favoriser l'utilisation d'un pilulier électronique par des personnes au stade léger de la maladie d'Alzheimer | FRANÇAIS

Présenté par **Myriam Tellier**, ergothérapeute clinicienne, candidate au doctorat, Université de Montréal.

Découvrez comment impliquer les personnes atteintes d'un trouble cognitif et leur proche aidant dans le développement d'une intervention; l'impact de l'utilisation d'un pilulier électronique par une personne atteinte de la maladie d'Alzheimer sur la prise de médication et l'impact de l'utilisation d'un pilulier sur les proches aidants.

12:15 - 13:30 | Lunch and Kiosks

13:30 - 14:15 | **SECOND KEYNOTE SPEECH**

Comment les technologies d'assistance peuvent être utiles pour les proches aidants de personnes atteintes d'un trouble neurocognitif | FRANÇAIS

Présenté par **Madame Dominique Anglade**.

Mariée et mère de trois enfants, Dominique Anglade est une Montréalaise polyglotte et très ancrée dans la communauté. Elle est titulaire d'un baccalauréat en génie industriel de l'École Polytechnique de Montréal et d'une maîtrise en administration des affaires de HEC Montréal.

Au cours des vingt dernières années, l'engagement communautaire de Dominique Anglade a été maintes fois souligné. Elle a siégé au conseil d'administration de plus d'une quinzaine d'organisations, dont Centraide et la Fondation de l'Hôpital Sainte-Justine.

Dominique Anglade a été réélue députée de Saint-Henri-Sainte-Anne le 1^{er} octobre 2018 et nommée Porte-parole de l'opposition officielle en matière d'économie et d'immigration le 22 octobre 2018. Élu la première fois le 9 novembre 2015, elle a été Ministre de l'Économie, de la Science et de l'Innovation et Ministre responsable de la Stratégie Numérique du 28 janvier 2016 au 18 octobre 2018 et Vice-première ministre du 11 octobre 2017 au 23 août 2018.

SCHEDULE - PART 3

| | |
|---|---|
| 14:15 - 15:30 | WORKSHOP # 3 |
|  | <p>Inspirations and Resources: a Conversation about Technologies for Promoting Social Interaction in Dementia Care ENGLISH</p> <p>Presented by Carrie Dai, PhD candidate, School of Information Studies, McGill University.</p> <p>In this workshop, Carrie will present technological innovations for social interaction in dementia care from academic research projects in Europe and North America. She will also share the findings of her doctoral research: empowering people with dementia to share and socialize in the context of the “Tales and Travels” program. Finally, Carrie will lead a Q&A session and brainstorming activity about everyone’s expectations and impressions of new technologies in dementia care.</p> |
| OR | |
|  | <p>Lever le tabou sur l’incontinence FRANÇAIS</p> <p>Présenté par Manon Morin, gestionnaire de comptes, Essity.</p> <p>Découvrez comment les produits d’incontinence et les risques liés à leur utilisation chez les personnes en perte d’autonomie peuvent être résolus grâce à la technologie.</p> |
| 15:30 - 16:00 | Closing Remarks |

ADVANTAGES OF ATTENDING THE COLLOQUIUM

- Network with health care professionals, caregivers, students and researchers.
- Gain insights from caregivers about their needs and challenges.
- Find out how your organization can meet the growing and diverse needs of caregivers, including millennials.

SPEAKER BIOS

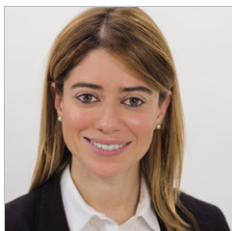

MEET OUR SPEAKERS!

Ron Beleno was a caregiver for his father who lived with Alzheimer's disease for over 10 years. He utilized technology, community resources, and creative strategies to enable his father and family to live as well as possible. Ron advises researchers and industry stakeholders on an international level and also coaches families faced by the challenges of dementia.

Dr. Maxime Lussier has a PhD in neuropsychology and is currently working towards a postdoctoral diploma in Rehabilitative Sciences at the Université de Montréal. His main research interests include neuroplasticity, gerontotechnology, cognitive rehearsal, and factors that regulate normal cognitive aging.

Adriana Aguilar Ordonez is the Director of Engagement at Huddol. In her role, Adriana works closely with community members and organizations to empower them to get the maximum benefit from the Huddol support experience.

Myriam Tellier is a clinical occupational therapist and practised for many years before embarking upon her Master's degree. She subsequently taught at the Université de Montréal's Occupational Therapy and Rehabilitation department and is currently working towards a PhD, the main focus of which is to study the use of pill timers by people living with dementia.

Carrie Dai is a PhD candidate at McGill University's School of Information Studies. She has a Master's Degree in Information Studies and finds solace in libraries and museums. Her research interests lie in the field of human-computer interaction. She focuses on usability studies for older users and assistive technologies for dementia care.

Manon Morin has been a representative and account manager for 30 years, and specializes in products from the medical field.
